Summary

Naturgy says 97% of customers who lost power in the 9 October earthquake have been reconnected, with crews still working in David Este, Las Lomas, Divalá and Los Algarrobos in Chiriqui.

Details (summary of the article)

Naturgy reports in Mi Diario that more than 190 crews with over 400 workers remain deployed after the strong earthquake in Panama. As of 10 October, 97% of customers whose supply was cut have been reconnected, but outages persist in several communities. In Chiriqui, work is focused on David Este, Las Lomas, Divalá and Los Algarrobos; elsewhere crews are in Veraguas (Mariato, Canto del Llano, San Martín de Porres, Soná, Atalaya), Coclé (Río Hato, Antón), Panamá Oeste (El Higo, San Carlos, Guadalupe) and Los Santos (Santa Ana, Tonosí, Flores, Pedasí). Quake damage has blocked access roads in some places, slowing crews. The company warns people to stay well away from fallen power lines and report them immediately. Damage and outages can be reported on the 800-8346 hotline.
