Summary

After the 9 October earthquake, CSS dialysis units were inspected, delaying some sessions. On Sunday 11 October the unit at the Hospital Regional Dr. Rafael Hernández in David (Chiriquí) and others nationwide will operate with extra shifts; staff are phoning patients with their new times.

Details (summary of the article)

After the earthquake of Friday 9 October, the dialysis units were inspected by SINAPROC, the Fire Department and CSS Biomedical and Special Systems specialists. These checks, needed for the safety of patients and staff, delayed some shifts. The network is now working in contingency mode to return to normal as soon as possible. All patients will receive their dialysis, with schedule adjustments. On Sunday 11 October the following will be open, with additional shifts: Hospital Regional Dr. Rafael Hernández L. (David, Chiriquí); Policlínica Dr. Horacio Díaz Gómez (Santiago, Veraguas); Instituto de los Trabajadores Dr. Francisco Díaz Mérida (Calidonia); Metro I Gran Estación San Miguelito; Metro II San Cristóbal; Complejo Hospitalario Dr. Arnulfo Arias Madrid; Hospital Regional Dr. Rafael Estévez (Aguadulce); Hospital Dr. Dionisio Arrocha (Puerto Armuelles); Hospital Dr. Raúl Dávila Mena (Changuinola); Hospital Dr. Ezequiel Abadía (Soná); and in Chitré (Hospital Dr. Gustavo Nelson Collado), the morning shift. Special case – Soná: the unit remains closed; patients will be transported from Hospital Dr. Ezequiel Abadía to the dialysis unit in Chitré, accompanied by health staff, with meals guaranteed. Each unit's administration is contacting its patients directly with their new session time; patients and families should watch for that call. Caja de Seguro Social, National Coordination of Renal Replacement Therapy and Chronic Kidney Disease. Panama, 10 October 2026.
