Summary

IDAAN reports more than 40 staff working simultaneously to repair quake damage at the Roberto Reyna treatment plant and restore service as soon as possible.

Full text (English)

We are working at the Roberto Reyna water treatment plant. More than 40 IDAAN staff, together with Operations, Construction, special crews and technical teams, are working simultaneously to deal with the damage and restore the plant's operating conditions. Staff who were on holiday have even been called in to reinforce the work. We are carrying out interconnections, demolition of structures that pose a risk, and cleaning of sedimentation tanks, among other actions. Our whole team is united and committed to one goal: to minimise disruption and restore service as soon as possible.

Estamos trabajando en la potabilizadora Roberto Reyna

Estamos trabajando en la potabilizadora Roberto Reyna. Más de 40 funcionarios del IDAAN, junto a personal de Operaciones, Construcción, cuadrillas especiales y equipos técnicos, se encuentran trabajando de manera simultánea para atender las afectaciones y recuperar las condiciones operativas de la planta. Incluso, se ha convocado a personal que se encontraba de vacaciones para reforzar las labores. Estamos realizando interconexiones, trabajos de demolición de estructuras que representan un riesgo y limpieza de sedimentadores, entre otras acciones. Todo nuestro equipo está unido y comprometido con un mismo objetivo: reducir al mínimo las afectaciones y restablecer el servicio lo antes posible.
