Summary

Naturgy announced on 15 October that it has finished restoring electricity in all areas affected by the 9 October earthquake and its aftershocks. Crews remain in the field monitoring the grid; customers still without power should call 800-8346.

Full text (English)

Statement, Panama, Thursday 15 October 2026. Naturgy completes the restoration of electricity supply after the earthquake. We inform our customers that we have completed the work to restore electricity supply in the areas affected by the earthquake of 9 October and its subsequent aftershocks. This was possible thanks to the uninterrupted work of our technical teams, who remained deployed in the affected areas to repair damage to the electrical infrastructure and recover service. Although restoration work has concluded, our teams remain in the field monitoring the behaviour of the electrical network and verifying its correct operation, to guarantee supply stability. If any customer is still without electricity, please contact our service line 800-8346 so our teams can check and attend to the situation.
