Summary

The Junta Comunal of Los Naranjos warns that the La Cantera bridge, just before the little park, is blocked by sediment, branches and other material, so water is flowing over the top of the structure. Crews from the community board, Risk Management and the Boquete Mayor's Office are clearing it; drivers and pedestrians should use caution.

Full text (English)

WARNING | LA CANTERA BRIDGE. The community is informed that the La Cantera bridge, before reaching the little park, is blocked by sediments, branches and other materials, causing water to pass through the upper part of the structure. Teams from the Los Naranjos Community Board, Risk Management and staff from the Boquete Mayor's Office are carrying out cleaning work to address this situation. We ask drivers and pedestrians to travel with caution through this area, follow the instructions of the staff on site and avoid exposure to risk situations. We appreciate the understanding and collaboration of everyone.
