Summary

Panama's public services regulator ASEP published a record of applications received between 12 and 16 October 2026 to change technical parameters of frequency-use authorisations held by telecom concessionaires.

Full text (English)

RECORD OF RECEIPT. The National Authority of Public Services declares closed the period from 12 to 16 October 2026 for the submission of requests for changes to technical parameters of frequency-use authorisations of telecommunications concessionaires. During that period ASEP received five (5) applications: No. 42571 Sistema Estatal de Radio y Televisión (SERTV), service type 218; No. 42574 Panama Canal Authority, type 200; No. 42593 Petroterminal de Panamá, S.A., type 200; No. 42594 Comunicaciones Delta S.A. (CODESA), type 202; No. 42598 Grupo de Comunicaciones Digitales, S.A., type 107. Given in Panama City on 16 October 2026. Signed Alkin Saucedo Bernal, National Director of Telecommunications.
