## Summary

ASEP Resolution AN No. 22157-Elec of 12 October 2026 denies an extension request by Hierro Solar, S.A. and cancels the provisional licence for a 9.90 MW solar project in El Arado, La Chorrera, Panamá Oeste. The RSS title refers to EDECHI service-quality exemptions for June 2026, but the published document concerns this solar licence.

## Full text (English)

Republic of Panama – National Authority of Public Services (ASEP). Resolution AN No. 22157-Elec, Panama, 12 October 2026: "By which the extension requested by the company HIERRO SOLAR, S.A. is denied and the Provisional Licence granted by Resolution AN No. 20763-Elec of 26 August 2025 and its amendment, for the construction and operation of the photovoltaic generation project called HIERRO SOLAR, is cancelled." The company had twelve months from notification on 27 August 2025 to submit the documents for a definitive licence; it filed its extension request on 28 August 2026, one day after the deadline, so the request was out of time, and it had not submitted all required documents. ASEP therefore denies the extension, cancels the provisional licence for the plant planned in the corregimiento of El Arado, district of La Chorrera, province of Panamá Oeste (9.90 MWac installed with 33 inverters of 300 kWac, 12.74 MWdc with 17,820 modules of 715 Wdc), voids Registration No. 795-2025, and orders the file closed. The decision is to be communicated to the Ministry of Environment, Elektra Noreste, S.A. and the Electric Transmission Company. It takes effect upon notification and allows only a motion for reconsideration within five working days. Signed by Zelmar Rodríguez de Massiah, Administradora General.
