Summary

Panama's public services authority ASEP announces that from 6 to 13 November 2026 applicants may file for new Type B telecommunications concessions (services without use of radio spectrum) and for additional satellite concessions/frequencies. The fee is B/.500 and applications go through the SATEL system.

Full text (English)

NOTICE. The National Authority of Public Services informs the general public that from 6 to 13 November 2026 applications may be submitted for New Type B Concessions, for the provision of telecommunications services without use of the radio spectrum, and for Additional Concessions and/or Frequencies for Satellite Services.

Interested parties are reminded that this procedure costs FIVE HUNDRED BALBOAS (B/.500.00), payable at the time of filing the application, by certified or manager's cheque made out to the National Authority of Public Services, or by bank transfer to current account 10000163865 held by the Authority at Banco Nacional de Panamá; the transfer must be properly identified (name, cédula/RUC, type of procedure and service number).

Applicants must process their applications through the Telecommunications Administration System (SATEL), with subsequent validation of the physical documentation, which must be submitted within the announced period to the Concessionaire Service Unit (UAC), National Directorate of Telecommunications, located on the first floor of the Office Park building, Vía España and Fernández de Córdoba.

ZELMAR RODRÍGUEZ DE MASSIAH, Administrator General.
