Summary

SINAPROC/IMHPA forecast intermittent rain, isolated downpours, lightning and possible wind gusts across most of Panama including Chiriqui on the afternoon and night of 31 October, with a Pacific marine warning for wind, swell and rip currents.

Full text (English)

Weather forecast: IMHPA forecasts for this afternoon and night [31 October] typical rainy-season conditions, with intermittent rain, isolated downpours, electrical activity and possible wind gusts in various parts of the country. Rain may occur in Panama, Panama Oeste, Colon, Darien, Cocle, Veraguas, Los Santos, Herrera, Chiriqui and Bocas del Toro, as well as the indigenous comarcas. Marine conditions: a warning remains in place for the Pacific due to winds, swell and rip tides. SINAPROC recommends not crossing swollen rivers and streams, taking precautions during thunderstorms and staying alert to official notices.
