Summary

The Ministry of Public Works reports over 45% progress on a new route meant to relieve traffic on the Interamerican Highway in David, Chiriqui (TVN report).

Full text (English)

TVN reports that the Ministry of Public Works (MOP) has advanced more than 45% on construction of a new road intended to ease congestion on the Pan-American (Interamerican) Highway through David, Chiriqui. The project is designed to divert through traffic away from the city centre, which should benefit drivers travelling between Boquete and David and onward along the highway. The item is a video news report with no further details on completion dates or cost given in the text.
