Summary

Panama's Social Development Ministry (MIDES) reports that Minister Beatriz Carles de Arango handed household aid to four vulnerable families in Boquete and David districts, including Bajo Boquete and Volcancito. She is due in Boquete on Saturday for the second Youth Innovation and Entrepreneurship Fair.

Details (summary of the article)

According to the Ministry of Social Development (MIDES), Minister Beatriz Carles de Arango wrapped up a working tour of western Panama on 2 October by delivering social aid to four families in vulnerable conditions in Chiriquí. The families live in the districts of Boquete and David, in the corregimientos of Bajo Boquete, Volcancito and Palma, and received beds, mattresses, stoves, wheelchairs, pillows, sheets, personal hygiene items and cleaning products tailored to each household's needs. She was accompanied by deputy Carlos Saldaña and staff of deputy Jamis Acosta. The tour also included two early-childhood care centres (Caipi) in David, where MIDES plans infrastructure improvements. Earlier in the week she inaugurated the refurbished San Vicente de Paúl long-stay home for the elderly in Rambala, Chiriquí Grande, Bocas del Toro. The ministry says she will return to Boquete on Saturday to take part in the second Youth Innovation and Entrepreneurship Fair, aimed at supporting young people's creativity and productive initiatives.
