Summary

A 34-year-old man reported missing by his family was found dead in the Chiriquí river in the district of Gualaca, Chiriquí; authorities are investigating the cause.

Details (summary of the article)

Mi Diario reports that firefighters searching for a 34-year-old man reported missing by relatives found his body in the Chiriquí river, in the district of Gualaca in Chiriquí province. Rescue teams of the national fire service recovered the body from the river. Prosecutors from the Public Ministry then attended the scene for the formal removal of the body, accompanied by forensic experts from the Institute of Legal Medicine and Forensic Sciences (IMELCF). The circumstances of his death remain unclear: it has not been said how long he had been missing, how he ended up in the river, or whether he had injuries. His identity has not been released. Investigations and forensic examinations are expected to clarify what happened.
