Summary

President Mulino handed over the La Nobleza-Playa La Barqueta road and rural roads in Alanje, Chiriquí, works meant to boost tourism, commerce and farming in the province.

Full text (English)

The Ministry of Public Works reports that President José Raúl Mulino delivered two road projects in Alanje district, Chiriquí. One is the roughly 16-kilometre La Nobleza-Playa La Barqueta asphalt road, costing about B/.8.8 million and serving more than 4,700 residents as well as visitors to La Barqueta beach. The second is a B/.6.1 million rural road programme covering more than 23 kilometres in Guarumal, Santo Tomás and San Pablo Nuevo, benefiting over 5,400 people. Bridges over the Espatarra and Guarumal creeks were rehabilitated and drainage improved. Officials say the works will ease the movement of farm produce and support tourism and commerce. The handover formed part of the same Chiriquí tour in which the Alto Boquete-Caldera road was inaugurated.
