In urgent need of adoption! Meet Ari, also known as Kitty. This sweet 6-year-old girl is spayed and ready to find her loving forever family. Ari is affectionate and people-loving, wanting to be close to her humans as much as possible. She is the perfect companion for someone who loves giving and receiving lots of affection and wants a cat who will happily be by their side throughout the day. Ari does best with free feeding, so she will need a home willing to accommodate her eating routine. She generally gets along better with dogs than with other cats, making her a potentially great fit for a dog-friendly home. She urgently needs a home — please share.
