Details (summary of the article)

The Spanish newspaper MARCA reports on the Clásica Provincia de Chiriquí (UCI 2.2), whose first stage ran 146 kilometres from David to Vía Caldera - a route that passes close to Boquete district. Gotzon Martín of Euskaltel-Euskadi attacked two kilometres from the uphill finish and took his first professional win after nine seasons, finishing 17 seconds ahead of a group led by his own teammates, who filled four of the first four places. The win also put him in the overall lead ahead of Isasa, Muñoz and Berasategi. Riders complained of heat and humidity making the closing kilometres hard. The second and final stage, 149 km over 12 laps of a circuit, was held on Sunday 18 October. The team had also won the Gran Prix Chiriquí on Friday 16 October, bringing its 2026 tally to eight victories.
