Summary

Panama's Ministry of Economy and Finance (MEF) says November will bring the last regional Fiscal Lottery draws of the year, with the Chiriquí draw on Tuesday 24 November, before a digital version launches in December 2026.

Details (summary of the article)

According to La Prensa, the Ministry of Economy and Finance plans to hold the first draw of a digital Fiscal Lottery in December 2026, letting consumers enter online using the QR code on their fiscal receipts. Ana Amado, acting secretary general of the MEF, said an official announcement with the launch details is close. Meanwhile, November brings the final round of regional draws for the year. Receipts issued between 13 September and 13 November 2026 qualify, and they must be placed in the collection boxes by Friday 13 November, when the boxes are removed. The draw calendar starts Tuesday 17 November for Panama province, continues Thursday 19 November for Panamá Oeste, Colón and Darién, then Tuesday 24 November for Bocas del Toro, Chiriquí and Veraguas, and ends Thursday 26 November for Coclé, Herrera and Los Santos. Boquete residents who save fiscal receipts should therefore deposit them before 13 November to take part in the Chiriquí draw.
