DogCamp Boquete NGO, active since 2014, released a video telling the story of its 12 years of rescue, shelter and adoption work in Boquete, thanking volunteers, donors and supporters. The organization announced a milestone: official recognition as a nonprofit organization in Panama, adding to its existing 501(c)(3) status in the United States, which it says opens new doors for its future. It says it continues to improve facilities and develop new projects to become a better shelter. The video was made possible by Jim and Diane Knutzon, produced by Julian Bonfiglio with drone footage from Panaramas and help from the Humane Society of Charlotte.
